Crossline

design: Markus Dörner

Comfort at work

Crossline is the result of close collaboration between scientists, engineers and designers to develop a novel seating system offering premium comfort. With its patented technology and innovative backrest design, Crossline cradles the body, supporting the spine without restricting or influencing movement.

delight users

The streamlined upholstery of the backrest adapts according to your weight and provides ideal support to the iliac crest of the back, gently absorbing movements of the spine.

Designed for the entire office

The Crossline product family includes an extensive range of versatile matching visitor and conference chairs. Choose from a variety of material and color combinations to achieve just about every creative vision. All Crossline models are available with high-quality fabric and leather finishes.

Coordinating colors
Seat back choice dictates arm and base color.

Height adjustable
Easily customizes to your lower spine.

Sleek and sturdy
Stylishly constructed in polished aluminum.

Personalized support

Crossline's unique, patented "Similar-Plus" mechanism ensures exceptionally smooth movement during dynamic sitting. It encourages circulation and reduces strain on the intervertebral discs, neck and back muscles, keeping workers happy and productive.

Opening angle
Pre-selectable
four-stage
adjustment.

3D adjustable
Prevents tension
in shoulder and
arm muscles.

Flexible seat depth
Provides comfortable
seating for all users,
whatever their height.

Custom
height levels
Easily adjustable
with a quick push
or pull of a lever.

Accommodating
backrest
Pressure can be
changed to suit
your weight in an
instant.

design for sustainability

Crossline provides a back-friendly “soft landing” even in the lowest position, thanks to a patented seat-height adjustment. This durable mechanism features a 30-year guarantee, supporting our philosophy of quality and sustainability.

Guiding principles to product design

delight users

Thoughtful details keep people happy and productive.

empower technology

Convenient, flexible access to technology and power makes it easy to share information.

foster agility

Smart products let people easily customize and adapt their space as needs change.

design for sustainability

Responsible choices matter — from beginning to end, and over again.
